BID SPECIFICATIONS FOR AUTOMATED LITTER CONTAINER WITH AUTOMATIC RELEASE LATCH

The City of Wausau wishes to make an initial purchase of 72 containers for distribution within our downtown business district. Bid prices will establish the cost for future additional purchases for the next 12 month period. The bid price should include delivery costs.

The following specifications describe a litter container that will be located along public sidewalks for the collection of litter that can be emptied using a fully automated refuse truck.

Any questions should be directed to Finance Director Maryanne Groat 715-261-6645.

CONSTRUCTION

The container shall be designed to receive and contain waste deposited into it by the public. It shall consist of three plastic components: a base, a body, and a hinged lid. The entire assembled unit shall be designed so that a standard American fully-automated refuse truck can grasp, lift and dump the contents without any human contact with the container. The cover should

DIMENSIONS

The containers shall have the following approximate dimensions:

	60 Gallon	75 Gallon
Height	47.5"	50.5"
Width	28.5"	36.0"
Depth	28.5"	36.0"
Assembled Weight	64 lb	78 lb
Load Rating	200 lb	200 lb

BASE

The weighted base of the container shall be separately molded unit onto which the body is attached. The base shall be attached to the body using bolts.

LID

The lid shall have a gravity lid lock that restricts opening in the upright position but automatically releases at 90 degrees of tilt when dumped by automated lifters. The lid shall have 4 separate openings to accept garbage.

COLOR

The body, lid and base of the container shall have a granite finish that is graffiti resistant and has UV stabilizers for long life in sunlight. Supply color samples with bid.

LOGO LABEL

The container shall provide in-mold color labels for City of Wausau logo. The manufacturer must submit a proof of the graphic for approval before the containers are molded.

WARRANTY

The entire container must be covered by a two (2) year factory warranty.

SNAP ON RECYCLING DOOR INSERTS

Can and bottle recycling door inserts to convert the container for recycling.

The City reserves the right to accept, reject or negotiate any or all bids.
