

TRASH BIN PLACEMENT – NOT IN STREET

As the Streets Division begins setting up trucks for snow plowing please remember to properly set your trash & recycling bins out for pick up. The bins shall not be in the street but behind the curb line on a driveway or boulevard. Harter's, City's trash collector, has the ability to pick up bins up to 4-feet behind the curb line. Proper placement of the bins will mitigate plowed snow from tipping over the cans and allow our plow drivers to effectively plow/clean the streets. Below are images of proper and improper placement of the bins:
