## **GENERAL**

The following specifications are intended to serve as general guidelines to obtain quotations on comparable equipment. It shall be the responsibility of the supplier to fully comply with these minimum specifications. The quotation information shall itemize in detail all standard and accessory equipment. The equipment shall be new and of the latest type and model, shall be equal to or exceed the following specifications, and shall conform to all safety DOT and OSHA regulations. All parts not specifically mentioned which are necessary to provide a complete operating piece of equipment shall be included in the quotation and shall conform in strength, quality of material, and workmanship to what is usually provided the trade in general.

The supplier shall describe in detail those areas where his equipment does not comply with these specifications. Any alternate equipment or material deviating from these specifications shall also be described in detail. Failure to do so may disqualify the quotation.

The City will not necessarily purchase the lowest priced equipment. The decision to purchase will be based on price, performance, maintenance history, availability of parts and service, equipment warranty, evaluation of quality, past operation experience, and delivery date.

The City of Wausau reserves the right to reject any and all quotes, and to determine the choice of equipment in the best interests of the City after considering those criteria mentioned in the preceding paragraph.

## **INTENT**

It is the intent of this specification to describe a police interceptor vehicle. This unit shall be the manufacturer's latest model except as modified herein. The vehicle, including all necessary equipment, shall be furnished and delivered new, complete and ready for use.

## **TYPE OF SERVICE**

The City of Wausau will use this vehicle in the day to day operations of the police department and the City. The vehicle will be required to travel all types of roads ranging from bituminous and concrete pavement to rutted, uneven, and possible off road operations. The supplier shall take the above conditions into consideration before submitting their quotation. Under the guarantee, no claims of abuse because of the above described normal use conditions will be given any consideration by the City.
